

## GRAFT IN TYPEWRITERS IS QUICKLY NIPPED IN THE BUD.

School Board Would Have Paid \$71.25 for Underwood Machines Others Get for \$50.

### STANDARD PRICE FOR SCHOOLS

Supply Committee Is Said to Have Taken Word of the Underwood Representatives and Stood in Fair Way to Being Bilked Out of \$100.

The School Board will not purchase five Underwood typewriters at \$71.25. That little deal was nipped in the bud this morning by shrewd typewriter salesmen who put individual members of the board next to the "hold up" that was planned against the innocent members of the Supply Committee who were not aware that a flat price of \$50 in made for typewriters purchased for High School use. A member of the board, Mr. J. B. Davidson, a former salesman, who was what was doing by the Underwood people last evening. It didn't take long to develop a story this morning.

John A. Slough, representing the Pittsburgh branch of the Smith Premier Typewriter Company, dropped into town last night. He detected something wrong with the situation when told of the price quoted by the Underwood company's representative. An awful roar went up when the facts were learned.

The deal is killed and if any typewriters are purchased it will be at \$50 and no more. That is the statement of several members of the board, both regular and insurgent.

Chairman B. J. Thomas of the Supply Committee stated this morning that he was not aware that typewriters could be purchased for \$50 for High School purposes.

Mr. Slough stated this morning that last year there was a misunderstanding regarding the rate agreement among the leading manufacturers and the Boarding and Smith Premier people interpreted the agreement to read \$70 for schools having less than five machines. It was made plain this year that High Schools are to enjoy the \$50 rate while commercial schools with more than five machines can have the same privilege.

"The Supply Committee was certainly asleep on its job," remarked a director this morning. "Why the members did not make some effort to ascertain the prevailing price to High Schools I cannot tell. It looks like bad business but fortunately the matter was discovered in time to save that \$100 or more on the purchase of five machines."

The Underwood people, the typewriter salesmen, who have power to act, will not pay more than \$50 for each machine.

"You can just bet the School Board will not pay more than \$50 for its typewriters," remarked Director J. B. Davidson this morning. "I talked with Mr. Slough as well as the representative of another typewriter concern. They both told me that they would get the benefit of the remaining \$21.25 asked by the Underwood man."

## Meat Left On Dump Not From J. R. Davidson Co.

That the driver of two mules who unloaded three barrels of meat on the garbage dump, and left it to decay did not belong to J. R. Davidson Co. was the statement made by J. R. Davidson this morning.

Mr. Davidson stated that some people are under the impression that the driver of the team owned by his company was at fault. "This is not the case," he said. "The mule team we drive hasn't been sent to the dump for over a year. Anyhow, when three barrels of meat are thrown out more I want to know about it."

Fourth Officer Hatt rejected the matter, but did not name the butcher at fault.

### PAYS OFF BONDS.

Borough Treasurer I. W. Rutter Also Settles Interest Due August 1.

Borough Treasurer I. W. Rutter has paid the interest on the street improvement bonds and the old refunding bonds. He has also taken up the three old refunding bonds which became due August 1.

The bonds cancelled took \$1,500 out of the borough treasury.

## The Vanderbilt Schools Complete Corps of Teachers

The Vanderbilt school board met Monday evening at the Vanderbilt hotel in regular session with the following members present: C. B. Roberts, C. H. Arison, Bert Newmyer, H. L. Miller, J. H. Hazlett, and W. T. Wilson, President G. B. Roberts presiding.

Bills were ordered paid as follows: Ogleve, McClure & Co., \$70.81; Geo. M. Strickler, \$50; American Book Co., \$11.61; Glen & Co., \$25.38; Lipincott & Co., \$19.88; Wm. G. Johnston, \$25; W. H. Means, labor, \$4; C. H. Arison, making out duplicate, \$5; H. B. Hall and C. O. Bain, auditors, \$15; total amount of bills paid, \$259.43.

W. F. Garrard, of Waynesburg, was elected principal for the ensuing term. The teachers were elected at a previous meeting. They are as follows: No. 1, Martha Wilson; No. 2, Naomi Roschman; No. 3, Estelle Dunlop; No. 4, Rosa Courtney. The board adjourned to meet on the first Monday evening of September, at which time arrangements will be made for the opening of the school on September 5th.

## Dog Had Rabies When It Nabbed Tom McDonald

State Veterinarian S. L. Gilliland of Philadelphia has written Dr. F. N. Sherick of town stating that the condition of the dog's head sent there for examination was in a satisfactory condition. The dog was killed immediately after hitting Patrolman Thomas McDonald on the wrist a week ago last Sunday. It was owned by A. D. Solson.

The brain of the dog, which was examined carefully, showed changes indicating the presence of rabies. Two rabbits were inoculated with serum extracted from the brain and the effect on them will be noted. Until this test is made nothing further can be done in the matter.

If the rabbits show any ill effects from the inoculation Officer McDonald will take the Pasteur treatment.

## A Constable From Franklin Is Arrested

Special to The Courier.

UNIONTOWN, Aug. 3.—Constable George Frank of Franklin township, was placed under arrest yesterday afternoon by Constable George Thomas of Uniontown. Mike Dominick, of Pittier is the prosecutor. Mike owned a dog, prior to the visit of Constable Frank. He valued it so highly that he secured the necessary license, but in Georges township.

On the 25th of July, he claims that Frank came into his yard, released the dog from its chain, and after the animal had left the premises, killed it. This information alleges cruelty to animals.

## King Alfonso's Visit to England Not a Social One

United Press Telegram.

LONDON, Aug. 3.—Members of the British foreign office practically admitted today that King Alfonso's trip to England now, is not on pleasure as announced, but to seek advice regarding the critical situation in Spain.

King George owes King Alfonso a visit, according to royal etiquette, and it is not believed Alfonso would come unless the situation was urgent.

### SEPTEMBER TERM

Of Criminal Court Already Has 98 Cases Listed.

UNIONTOWN, Aug. 3.—(Special.) Assistant District Attorney George Patterson stated this morning that already 98 cases have been returned for trial at the September term of criminal court. Of these from 15 to 20 were held over from the June session. The most important trial will be the B. Frank Smith murder case and the prosecution against Raymond Cupers for criminal assault.

## A SICK COW

The Cause of a Disorderly Conduct Case at Uniontown.

UNIONTOWN, Aug. 3.—(Special.) A sick cow was the cause of a disorderly conduct case before Squire Boyle this morning. Mary Smith, the defendant, was charged with poisoning the animal by Mary Papam.

Both parties are from Lambert, and the poisoning was said to have occurred on July 28. The Smith woman spread some salt on the ground for the cow. About this time a fortune teller appeared in the neighborhood and informed Mrs. Papam that her neighbor was putting poison around the property. Squire Boyle divided the costs.

## GOVERNMENT BY COMMISSION UP.

Directors of Chamber of Commerce Talk Matter Over Informally.

### ARE WILLING TO BE SHOWN

Also Signify Intention of Sending a Representative to the Proposed Convention to Be Held in Williamsport—Smoker Next Month.

The eight directors of the Chamber of Commerce who met yesterday discussed commission government as an exclusively published in The Courier and evidenced a willingness to be "shown" in the matter. Owing to the fact that a bare quorum was present no definite action was taken and the directors did not go on record as favoring the proposition.

The matter was not gone into thoroughly but the directors were of opinion that if the municipality could be governed more economically under the form of government by commission it would be well worth investigating.

The Williamsport Board of Trade, which professes to "do things," and has concrete evidences of the fact behind it, has taken a lead in the matter and proposes to call a state convention to take up the matter and to have a bill put through the Legislature enabling municipalities to adopt a different method of government if so desired. If this convention is called, and it probably will be, Connellsville will send a representative.

It was decided to hold the quarterly meeting of the Chamber of Commerce on September 1 instead of next Thursday night. This meeting will be in the nature of a social session and a smoker. It will probably be the last meeting prior to the annual session in December when new officers are to be elected and another fiscal year started. Plans are already being laid for a routing session to close the first fiscal year of activity the Chamber has had. It may take the form of another big "get together" dinner.

It is possible that by the time the September meeting is held the commission government advocates may have something to report and the matter put up to the members of the Chamber as a body.

## Street Committee Look Bridge Over on York Avenue

Several members of the Street Committee of Town Council got together last evening and inspected the bridge on York avenue which crosses Mount creek. This bridge is badly in need of repair and Council will probably direct that the work be done. Besides new plank and a guard rail it will be necessary to build abutment wings. The cribbing has given away and a stone abutment is badly needed.

Chairman Simon P. Hay of the Street Committee has a good bit of work under way. Today the plank on the Yowlesville bridge was replaced. The culvert across the Snyderstown road is being put in good shape after many complaints were made concerning conditions at this point and as soon as possible. Alley A. leading off of Eighth street will be repaired. This work will be started in a day or two.

### A HOLDUP

At Brownsville Lands Three Foreigners Behind Jail Bars.

UNIONTOWN, Aug. 3.—(Special.) Joe Komin, Andy Kewels and Andy Solomon were committed to jail by Squire Evans of Brownsville this morning for holding up a foreigner near town last night and taking \$8 from him. The victim was badly beaten. It is said.

Squire Vanelek of Bellefonte committed John Shearer to jail for insanity and surety of the peace.

### Assault Charged.

UNIONTOWN, Aug. 3.—(Special.) Mike Rinaldi has been held for a hearing before Squire Bierer on August 1 to answer charges of assault and battery preferred against him by Vazila Balklek. Vazila says Mike treated her roughly at Ruff works last Sunday. The two live together at Ruff.

## Briscoe on Job Out in New Salem; Woman Is Held

Special to The Courier.

UNIONTOWN, Aug. 3.—As the result of information furnished by Constable William Briscoe, of New Salem, Chadrina Baldetti was held for court by Squire John Boyle on a charge of adultery brought by her husband, Giovanni Baldetti. The woman was alleged to have been intimate with Giuseppe Ecenta, a former boarder, and now a fugitive from justice. Briscoe searched the house at Rivers about a month ago, following a fight in a nearby house, and caught the couple in a room together. He informed the husband, who at once paid a visit to the place.

At a hearing held yesterday before Squire Daniel M. Bierer, Mrs. Baldetti claimed that she had shot at her with a revolver and attempted to decapitate her. Bierer dismissed the case, but placed the costs on the husband, for going to the house. He was lodged in jail in default of the required amount.

Mrs. Baldetti burst into tears when informed that she must go to jail. Both the husband and the wife had a baby in their arms.

## Samuel Hillen Killed in Mine at Keister Works

Samuel Hillen, aged about 40 years, was instantly killed yesterday afternoon in the Keister mines by a fall of slate. His body, which was badly mangled, was recovered soon after the accident occurred. The body was removed to J. B. Sims' undertaking rooms and after being prepared for burial was removed this morning to the home of his mother, near Breakneck.

Deceased was born and reared near Breakneck. His wife died last January. Two children survive. Interment in Mt. Olive cemetery.

Coroner H. J. Bell, who was notified that an inquest was unnecessary. Funeral services will be held from his mother's residence tomorrow afternoon at 2 o'clock and from the Breakneck church at 2:30 o'clock.

## Volunteers Must Register If They Want to Get Paid

If the volunteer firemen want to draw pay for their services it would be wise for them to enroll as members with Secretary Homer Moore. That is the advice handed out by Fire Chief J. W. Mitchell this morning. A number of the volunteers elected by Town Council have never registered; neither have they been sworn in.

The volunteers on this side of the river have not been able to get together. "They seem to take but little interest in the organization except around the time that their pay falls due." To their credit it must be said, however, that they make a good showing when fire occurs.

### IN POLICE COURT.

Former Uniontown Peace Officer Defendant Before McGrum.

UNIONTOWN, Aug. 3.—(Special.) Andy Bowle, a former second ward constable, the defendant before Burgess B. S. McGrum, this morning, charged with disorderly conduct. Mrs. Bowle, who has recently applied for a divorce, appeared against him. The wife and nine children reside on Fayette street and when Bowle made his appearance at the home last evening, in a drunken condition, Mrs. Bowle was unable to stand his abuse and summoned Officer Joseph Riley, who lodged him in the lockup. He will serve 48 hours.

Four other drunks paid two dollars apiece, and three others are in for 24 hours.

### A HOLDUP

At Brownsville Lands Three Foreigners Behind Jail Bars.

UNIONTOWN, Aug. 3.—(Special.) Joe Komin, Andy Kewels and Andy Solomon were committed to jail by Squire Evans of Brownsville this morning for holding up a foreigner near town last night and taking \$8 from him. The victim was badly beaten. It is said.

Squire Vanelek of Bellefonte committed John Shearer to jail for insanity and surety of the peace.

### Assault Charged.

UNIONTOWN, Aug. 3.—(Special.) Mike Rinaldi has been held for a hearing before Squire Bierer on August 1 to answer charges of assault and battery preferred against him by Vazila Balklek. Vazila says Mike treated her roughly at Ruff works last Sunday. The two live together at Ruff.

## OUTCOME OF FIGHT

At Oliver on July 4 Wins Up in a Squire's Office.

UNIONTOWN, Aug. 3.—(Special.) After a hearing before Squire John Boyle this morning Earl Walters and William Kilsinger were ordered to pay the costs and doctor's bills incurred by Joseph Campbell from injuries sustained at the hands of the defendant. Campbell was badly used up in a scrap that occurred on the 20th of July at Oliver No. 1. The defendants claimed that he drew a knife during an argument, and to protect themselves they used the nearest weapons within reach. Walters used an iron and his partner a heavy stick. Assault and battery was charged.

## JUSTICE BUSY IN EVERSON BOROUGH.

Squire Moorehead Holds Two for Perjury and One for Assault.

### CROSS-SUITS ARE INVOLVED

Mrs. Martin Coyne and Mrs. Joseph Lucia Had Battle Over Disputed Line Fence and That Started It All. Other Cases Returned.

Special to The Courier.

UNIONTOWN, Aug. 3.—H. H. Moore, Justice of the Peace at Everson, made three returns to court this morning.

David H. Wingrove and Mrs. Sarah Wingrove are charged with perjury by Mrs. Joseph Pell of Bullskin township. The offense is said to have been committed in Squire John C. Brown's office, on July 18th, where they had been summoned on a charge of surety of the peace. Mrs. Pell alleges that the couple wilfully and corruptly made certain false oaths and statements, thereby causing grievous injury to her reputation, and unnecessary expenses. They were held for court on July 23rd.

Mrs. Martin Coyne of South Everson, charges Mrs. Joseph Lucia of the same town, with assault and battery. According to the information the affair must have been quite exciting. It was on the 6th of June that the defendant was in the act of tearing down a disputed fence, that an argument arose. Mrs. Lucia is said to have first used a mason's trowel to start things going, and flung up with a wooden clothes prop, inflicting serious injuries.

A cross suit was filed by Mrs. Lucia, who claims that Mrs. Coyne struck her in the face with her clenched fist. Both hearings were held the same evening of the trouble. The information made before Squire Paul R. Condy, of Leith, charging William Jackson, alias Whitechick, with "surety of the peace and fear of bodily harm," was also returned. Ella Richardson, the prosecutor, alleges that on June 5th, Jackson came to No. 4 house, Frog Pond, in Uniontown and ordered her to come outside. He said he would cut her when she did, and standing in a threatening attitude, with his hand in his hip pocket.

Tenth's Encampment.

It is the talk about headquarters of the Tenth Regiment, N. G. P., Col. Richard Coulter, that the regiment will be assembled for camp, August 10.

### THE DULL FAMILY REUNION.

Special Train With Band Aboard Took Big Crowd to Killarney This Morning.

One of the largest family reunions ones were made. Connellsville is well represented as is Scotland and other nearby towns.

The ladies in attendance spent the greater part of Tuesday preparing for the reunion and judging from the well filled baskets no one will go hungry. The Tenth Regiment Band is on hand and there will be plenty of music during the day. Various other amusements have been arranged for the day and nothing will be left undone by the committee in charge toward having the affair and a grand and enjoyable one.

### A HOLDUP

At Brownsville Lands Three Foreigners Behind Jail Bars.

UNIONTOWN, Aug. 3.—(Special.) Joe Komin, Andy Kewels and Andy Solomon were committed to jail by Squire Evans of Brownsville this morning for holding up a foreigner near town last night and taking \$8 from him. The victim was badly beaten. It is said.

## NO OVERALLS FOR ROOSEVELT WHILE INVESTIGATING LABOR.

"Nothing Spectacular," He Remarks Prior to Beginning His Investigation of Human Side.

## Insurgents Won in Kansas But Not in Missouri

United Press Telegram.

TOPEKA, Kas., August 3.—The primary election returns today indicate that Governor Stubbs was re-nominated by an overwhelming majority and that six of the eight Republican Congressmen nominated are insurgents. The nomination of H. J. Hopkins, insurgent candidate for Lieutenant Governor for Congress without opposition.

The regular wing of the St. Louis city administration crushed the insurgent faction for the control of the city central committee, meaning the political control of St. Louis.

ST. LOUIS, Mo., August 3.—Missouri is "standing pat." The complete primary returns today indicate that 15 of the State representatives were re-nominated. Champ Clark was re-nominated for Congress without opposition.

GUTHRIE, Okla., August 3.—Fourteen thousand illiterate negro voters in Oklahoma have been disenfranchised as the result of yesterday's primaries by the adoption of the famous "grandfather" amendment to the State constitution.

The vote favoring the amendment was far in excess of the strength of the Democrats, who urged its adoption. Democratic victory is certain in November as a result of the disenfranchisement of the negroes.

## Insurgency Only Issue With Iowa Republicans Now

United Press Telegram.

DES MOINES, Ia., August 3.—With an open, progressive repudiation of the tariff law Senator Albert B. Cummins today sounded the battle cry of the insurgents as temporary chairman of the Iowa State Republican convention. He did not apologize for, but gloried in his opposition to the bill.

For the first time in history the Republicans of Iowa have for the only issue the endorsement of a Republican President and Congress.

Unions signs fall the insurgents will withhold this endorsement. Six progressives and five standpaters are members of the resolutions committee. The majority platform will endorse President Taft for his "good intentions" only and lend the insurgent Iowa Senators and Congressmen.

### WORST EVER.

Torpedo Explodes on Russian Boat, Killing Six.

KRONSTADT, Russia, August 3.—(Special.)—The Navy Department reports six killed and 11 injured on a Russian torpedo boat today at Kronstadt. The first report says a defective boiler tubes were the cause. Later it was reported a torpedo had exploded. The accident is one of the worst in the history of the navy.

### THE DULL FAMILY REUNION.

## Calf Brother Was Accused of Stealing Is Found Dead by Ritenour in Mine.

The mystery surrounding the disappearance of Henry Ritenour's calf since July 24, was cleared away a few mornings ago when Mr. Ritenour found the dead body of the calf in a coal bank near his home at Davidson. Squire P. M. Buttermore of the West Side is in receipt of a letter from Mr. Ritenour in which he made known the fact of the recovery.

Following the disappearance of the calf Ritenour appeared before Squire Buttermore and made information against Abe Sanner and Richard Ritenour a brother of the prosecutor, charging them with the theft of the calf. The information was withdrawn and the prosecutor will pay the costs. The calf had evidently strayed away from the stable and wandered into the coal bank where it died from starvation.

## TECHNICAL POINTS ARE LOST

Former President Wants to Know How the Men Live and How They Mine. "Black Hand" Is Being Given Careful Investigation.

United Press Telegram.

WHITES-BARRE, August 3.—Colonel Theodore Roosevelt today investigated the Black Hand, Mafia and "undesirable" citizens among the foreign element. He arrived here at midnight in company with the son of the Outlook's proprietor and spent the night at the residence of Father Curran. Accompanying Father Curran, John Mitchell, Mr. Abbott and the news-magazines, the Colonel went to Pittsburgh. The Colonel went ahead and entered the Italian settlement.

The inhabitants enjoyed entertaining the former President but objected to running the risk of a kuffing for discussing information.

The party inspected the Lehigh Valley coal breakers, settlements, miners' homes and factories. Roosevelt said he didn't care to enter the mine. Father Curran entertained the party and 40 priests at dinner. Mr. Roosevelt returns to New York tonight.

Regarding loaning overalls and entering the coal mines, Colonel Roosevelt declared: "This is not a spectacular trip. I only want first hand knowledge regarding the actual living and social conditions of the miners. I have no intention of making a thorough study of the inside mine workings. The human side of the question appeals to me more than the technical." "Through the aid of Father Curran, who took a prominent part in the anti-trust strike and who visited me in the White House to confer regarding peace negotiations, and John Mitchell, the leader of the miners, I expect to get much valuable information during the tour."

As Buttan an enthusiastic crowd followed Colonel Roosevelt's automobile to the public square demanding a speech. The Colonel spoke briefly.

## Bitner Garden Prizes Awarded by Committee

Prizes have been awarded the following persons at Bitner works of the H. C. Frick Coal Company: Best garden, Paul Vagle, \$5; second best garden, Mike Blasings, \$3; niece yard, John Stewart, \$4; second niece yard, T. C. Bottomly, \$2.

The committee for garden inspection was Earl Forsythe, William Ball and Charles Bell; for yard inspection, Mrs. Samuel Harshman, Mrs. Clarence Nicholson and Miss Catharine Murphy.

It is interesting to note the marked improvement in the place among the people of Bitner in the last two years with respect to the gardens. Last year there was a number of good gardens, but this season nearly every family has its own garden. The committee reports 31 gardens and the majority in fine condition.

## Reinforcements Save Deputies From Strikers

United Press Telegram.

IRWIN, Pa., August 3.—Strikers today attacked a double house containing over a score of strikebreakers. The fight lasted 20 minutes and resolved itself into a pitched battle between the strikers and armed deputies who were on guard.

Over a hundred shots were exchanged between the combatants. Michael Harrell, aged 19, was wounded, but not fatally. He is one of the strikers.

The deputies were forced back and the attack upon the house became serious. Reinforcements hurried to the scene and saved the deputies from serious defeat.

### BUSINESS MEN MEET.

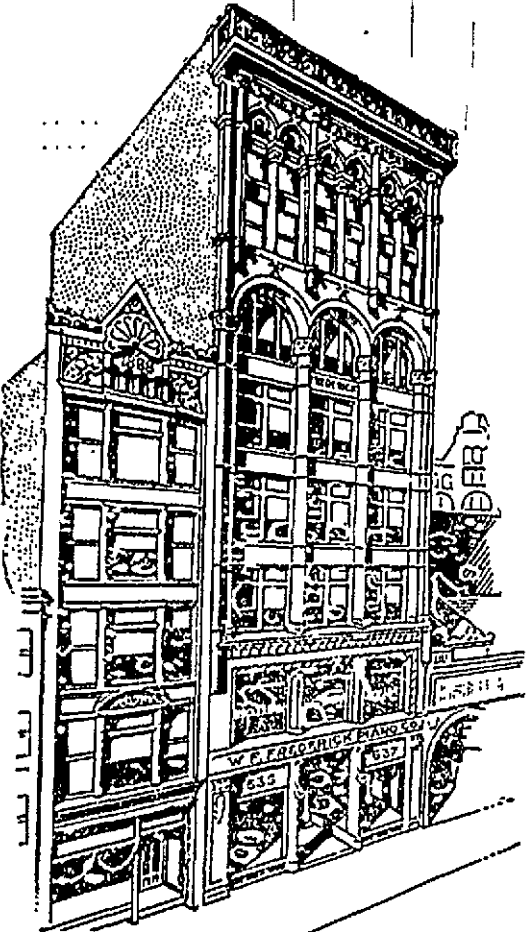

Constitution to Be Adopted and Officers to Fill Vacancies.

The Business Men's Association will meet this afternoon for the purpose of adopting a constitution and by-laws, receiving the report of the secretary and completing the list of executive officers.

The membership of the Business Men's Association includes practically all the prominent merchants of the community.

PITTSBURGH WAREHOUSES, 635-637 SMITHFIELD ST.  
The largest building in America devoted exclusively to the retail and wholesale piano business.

THE W. F. FREDERICK PIANO CO. is a good example of what can be accomplished by push and energy, when backed up by good intentions and lofty purposes. Its Pittsburgh store is typical of Pittsburgh—the largest of its kind in the world—while the house as a whole, made up of 12 stores and over 70 agencies, is thoroughly representative of the section in which it operates, the great industrial empire of Western Pennsylvania, Maryland, West Virginia and Ohio. Doing a business of nearly two million dollars a year, in pianos and organs alone, it seeks more business on the basis that has built up the enormous trade it at present enjoys—that of always considering the interests of its customers as being identical with its own.

He who is silent is forgotten. He who abstains, is taken at his word. He who does not advance, falls back. He who stops, is overwhelmed, distanced, crushed. He who ceases to grow greater becomes smaller. He who leaves off, gives up. The stationary condition is the beginning of the end.

## The Second of the Great Frederick Piano Clubs

A second great co-operative club of 500 members to participate in another of the greatest piano deals ever made in the piano business.

History repeats itself. A year ago this month we announced a great co-operative piano club through our Pittsburgh store. That Club inaugurated the biggest event, up to that time, that had ever taken place in the piano trade. Today we inaugurate the **second** of these great clubs. Today we again give 500 persons an opportunity to share in the advantages of another one of these gigantic deals. Seven of our stores including Uniontown, this year sharing in this great distribution. At the same time we have thrown such liberalities around the conditions of membership in the Club as has never before been given to piano buyers.

### This Year's Deal and the Piano

The deal this year is a straight out purchase of 500 pianos **FOR SPOT CASH**. The instruments are of a most reliable and trustworthy character—a good, substantial piano, in which real value is put on the **INSIDE**, rather than in fancy cases with a whole lot of “Jim Cracks” and of “Gaw Gaws” on them. We have handled the piano for a dozen or more years in all our stores. We know it to be as reliable a piano as was ever put in a home. It is made by good, sturdy, experienced labor in the largest piano manufacturing plant in the world; by men, many of whom have been working in the same shop for twenty years.

### The Value of Each of These Pianos Is \$375.00

The pianos that will be sold this year, through the second Frederick Club have been sold right here in Fayette county and throughout this entire section at 375 dollars. Hundreds more are being sold every month all over the United States at 375 dollars. **THEY ARE WORTH 375 DOLLARS.** Measured by any standard of value you wish, they are worth 375 dollars. They are worth it on **OUR** floors, or on the floors of **ANY REPUTABLE PIANO DEALER** in the country. The Frederick Club price is 278 dollars. The price includes everything. There is no extras of any kind. No interest to be added for drayage, freight, stool, scarf—**ABSOLUTELY NO EXTRAS.** Two hundred and seventy-eight dollars is the price, and the price **INCLUDES EVERYTHING.**

### The Frederick Club Terms

**\$1.50 WEEK**

These 500 pianos will be sold, 5 dollars cash, then 1 dollar and 50 cents a week. The 5 dollars just about covers the cartage and delivering, yet 5 dollar payment made when you join the Club is credited to your account.

The piano will be delivered immediately. You do not have to wait until the club is full. You get your piano when you join. The remainder is payable every week. Club members do not have to pay more than 1 dollar and 50 cents a week. This gives them 182 weeks in which to pay for the piano and still get it at the club price, 278 dollars.

**\$278.**

### The Club Price of \$278 Can Be Reduced

We said above, that \$278 includes everything. So it does. But the club price can be reduced. The Club Member's Membership Book has 182 Coupons attached to it. A Coupon represents a week. One Hundred and Eighty-Two Coupons represents 182 weeks—the life of the agreement. Every time a payment is made, one of these Coupons is stamped “Paid.” If payments are made in advance—that is, before they are due, a rebate of 25c for each and every week is handed back to the Club Member in cash. You can therefore see that the price (\$278) can be reduced just as many times Twenty-five Cents, as you pay weekly payments in advance or before they are due.

#### Special Advantages On the Second Frederick Piano Club

Read every word of this. Every instrument is guaranteed without reserve—for five years. There are no “loopholes” in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing. Every Club Member has a full year in which to satisfy himself as to the character of the piano. If it does not prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell—(and we sell over thirty different representative makes.) If a club member dies during the life of his contract, we immediately send a receipt in full to his family for the instrument. (Three members of last year's club have died.) A beautiful stool to match the piano and latest style scarf are included without extra cost. The piano will be tuned twice without charge—each club member receives coupons for his tunings which he may use to suit his convenience. Club members have an opportunity to still further reduce the cost of the piano by procuring other Club Members.

### Membership Books in the Second Frederick Club Open Wednesday

The Club books open Wednesday. In other words, August 3 will be the first day you can join the Club. The pianos, however, are now on display in our main display room, First National Bank Arcade, where you can see and hear them. You are cordially invited. The pianos will be delivered immediately upon your becoming a member and making the initial payment of \$5.00. During the first week of the Club's Life we hope to give everyone their choice, as the quota intended for the Uniontown store are now arriving at the rate of four or five a day.

## W. F. Frederick Piano Company

Exclusive representative for Chickering, Hardman and the peerless Knabe grand and upright pianos.

Rooms 4 and 5 1st Nat. Bank Arcade, Uniontown

(Copyrighted by W. F. FREDERICK, 1910.)

#### The Figures of the Second Club

The retail value of these 500 pianos is \$187,500. They will sell for \$139,000.

The minimum saving to the club is \$48,500—nearly fifty thousand dollars.

It will take 33 solid car loads to deliver this order—or nearly two train loads.

The freight will amount to about \$2,000, or approximately \$62.12 a car load.

The Club is given a grand total of 15,000 weeks or 290 years longer in which to pay for their instruments than if each member was to buy independently upon the usual terms. The saving to each Club Member—\$97—will pay for the musical education of one child for 2 years and 7 months at 75c a lesson.

daily newspaper in the Conneltsville  
area which has the honor and  
privilege to print a daily report under  
the name of the Conneltsville  
area. It has special value as an  
advertising medium for such interests.  
Entered as second-class matter at  
the postoffice, Conneltsville.

SUBSCRIPTION.  
DAILY, \$1 per year; 10c per copy.  
WEEKLY, \$1 per year; 10c per copy.  
PAY NO MONEY to carriers, but only  
to collectors with proper credentials.  
Any irregularities in the delivery of  
the Courier to homes by the carriers  
or agents in other towns should be  
reported to this office at once.

WEDNESDAY EVENING, AUG. 3, 1910.

THE ADVANCE  
IN NATURAL GAS RATES.

Much has been said and written con-  
cerning the advance in natural gas  
rates in the Conneltsville area, and  
the failure of The Courier to join  
in the loud wall of distress has  
brought forth the accusation in certain  
ill-informed quarters that we must be  
in some manner interested in protect-  
ing the natural gas company.

The conclusion is far from the  
truth. The Courier pays the same as  
other consumers. The advance has  
been radical. Like all the other Pay-  
ette county newspapers it has had a  
flat rate of ten cents. This rate was  
made by the gas company years ago.  
It was not collected on our part, and  
we have at no time asked the pro-  
prietors of the Courier to pay more  
than the rate of the other newspapers.  
On the contrary, on the contrary,  
no newspaper in Fayette county has  
been more ungrateful of its critics  
of the gas company when they were  
mutilated.

The advance in natural gas rates is  
under consideration by the Chamber  
of Commerce and pending their de-  
cision in the matter we have held  
our peace. We have only to say so  
far as we can discover Conneltsville,  
like Uniontown, has no recourse save  
in protest of the possible in-  
crease of the gas rates.

The Town Council of Conneltsville,  
like that of Uniontown, handled the  
natural gas franchise like infants. The  
Council's law makers passed a gen-  
eral ordinance full of elaborate pro-  
visions regulating the natural gas com-  
panies who might seek entrance in the  
borough, but they utterly failed to  
grant the most to the citizens of the  
borough.

When the Conneltsville Water Com-  
pany entered Conneltsville it was  
granted a franchise and a contract for  
the public water under an agreement  
that there should be a maximum  
charge for water to domestic consum-  
ers. The gas companies entered Con-  
neltsville with no restrictions in this  
regard whatever.

The governing bodies of Scotland  
and Mount Pleasant were more busi-  
nesslike. They fixed the maximum  
charge for natural gas at twenty-five  
cents per thousand feet, and they  
compelled the gas company to furnish  
gas at this rate; but the hands of  
Conneltsville and Uniontown are tied  
because their officials failed to ap-  
preciate the most vital point in a gas  
franchise contract.

It is stated that Uniontown's Town  
Council refused to admit the proposed  
Conneltsville-Killbuck Gas Com-  
pany to enter the town. This  
company was not so treated in Con-  
neltsville. It was given the freedom  
of the city, but it never exercised its  
corporate rights.

It is claimed that the natural gas  
company pays 2 1/2% dividends on the  
present price of gas; if so, it is well  
enough paid without increasing the  
price.

But there is no use kicking against  
the pricks if that kicking is certain to  
do no good. Conneltsville has no case,  
thanks to her own bad management.  
She can, we repeat, only protest and  
try to persuade other competing nat-  
ural gas interests. If any such can  
come into the town.

A feature of the new gas rates, how-  
ever, is the fact that they scale down  
to 14 cents per thousand for manu-  
facturing industries using a sufficient  
quantity to warrant this rate. This  
rate, however, is much greater than  
many other towns are able to offer,  
and it furnishes a handicap to our  
efforts at industrial expansion. It is to  
be hoped that the Chamber of Com-  
merce will be able to make better  
terms with the gas company than  
these now offer, as well as domestic  
consumers as to manufacturing inter-  
ests.

Mrs. Daniel Brooks.  
Becoming suddenly ill while on a  
visit to her daughter, Mrs. Daniel  
Brooks of near Bethelboro, Mrs. Mar-  
garet Day, of Point Marion, aged 91  
years, 6 months and 15 days, died  
yesterday. She had been ill since  
last Wednesday and her system failed  
to withstand the illness. General de-  
bility was given as the cause of her  
death.

Dawson Bridge Sold for \$50,000.  
UNIONTOWN, Pa., Aug. 3.—The  
Dawson Bridge Company yesterday ac-  
cepted \$50,000 awarded by the board  
if viewers for the bridge over the  
Loughborough river between Dawson  
and Hickerson Run. It recently was  
voted by the county and made free  
to the public.

DAILY INFORMATION FOR THE SPORTING EDITOR

Natural Gas Rates in Uniontown in 1889;  
Ordinance Passed by Conneltsville Council.

Considering the awful wall emanat-  
ing from Uniontown over the increase  
in the price of gas, it is interesting to  
read the prices that prevailed during  
another boom which occurred quite a  
few years back.

It was on October 1, 1889, that the  
Payette Fuel Gas Company of Union-  
town increased its gas rates. There  
are the new rates that went into ef-  
fect at that time:

Cook stoves, \$1.25 per month. First  
grade, 75 cents; second grade, 50 cents;  
each additional grate, 50 cents.  
Heater and three registers, \$3 per  
month for eight months, each additional  
register, 50 cents.  
Laundry stoves, 50 cents per month.  
Baltimore heaters, \$1 per month.  
Street lights, \$1.25 per month.  
Inside jets, 20 cents per month.

For a six room house with a cook-  
ing stove and eight gas jets, the  
lighting charge in those days would  
have been \$2.85. In the winter time  
if the hot air furnace were heated  
with gas and six registers were used,  
the gas bill would have amounted to  
\$7.35.

Under the present meter system  
and the prevailing rates the gas bill  
would run from \$1.00 to \$2.50, with  
gas enough to heat a stove or two.

When gas is used in furnaces now  
days, however, the company gets all  
the heat of it and there is not even a  
hint to the citizens of the town of the  
amount when they turn in a bill of \$8.00  
or \$10.00 for fuel used.

Judging, however, from the rates  
that prevailed in Uniontown in 1889  
that town is getting all the best of it  
these days.

Following is the general natural gas  
ordinance passed by the Conneltsville  
Town Council in 1887, and under the  
general provisions of which the Pay-  
ette Natural Gas Company is now  
operating:

No it ordained by the Town Council  
of the Borough of Conneltsville and it  
is hereby established by authority of the  
same.

SECTION 1. That all Corporations  
or firms supplying gas for fuel or  
other purposes now or hereafter duly  
organized shall have the privilege and  
be subject to the provisions hereinafter  
enacted, consent thereto first being had  
and obtained from the Town Council,  
etc.

They may enter upon any street,  
lane, road or alley within the limits  
of the Borough of Conneltsville, and  
may lay down pipes for the purpose  
of conveying or distributing natural  
gas or other material and may erect  
any necessary connections for consum-  
ers with necessary street boxes and valves  
subject, however, to all the other and  
further provisions hereinafter enacted.

SECTION 2. Any Corporation asking  
privileges under this ordinance shall  
furnish the Town Council with an ex-  
act plan of their proposed line showing  
the streets, lanes, roads and alleys or  
other possible highways that they may  
wish to open or occupy with their pipes  
or other lines. And a like plan shall  
be furnished to the Town Council for  
any further extension of the said pipe  
or other lines for approval.

SECTION 3. All Natural Gas pipes  
shall be laid at the depth of not less  
than three (3) feet through all streets,  
lanes, roads or alleys and all ditches  
and any other place where they may be  
laid, and shall be so laid as not to  
interfere in any way with any  
sewers, drains, pipes or any other gas  
or water fixtures now laid belonging  
to any citizen, individual or Corporation  
or to the Borough. And if at any time  
the Borough shall wish to construct  
any sewer or other public utility  
all gas pipes or other lines laid under  
this ordinance shall be removed or  
changed so as not to interfere with the  
proposed Borough work and the Com-  
pany to whom any interfering pipes  
or lines belong shall pay the expense  
of removal or change.

SECTION 4. Any and every such Gas  
Company shall lay their pipes or con-  
duits on any or all the streets or alleys  
whenever the Town Council may so  
direct subject to such modifications and  
agreements as the Town Council and  
company or companies may hereafter  
agree to.

SECTION 5. The privileges and con-  
ditions contained in this ordinance shall  
not be exclusive, but shall apply to  
any and every company or Corporation  
furnishing light, heat or fuel by means  
of underground pipes or conduits.

SECTION 6. All pipes and appliances  
used in laying said pipes shall be of  
the latest and safest known to be used  
for Natural Gas at the time of com-  
mencing work on the pipe line within  
the Borough, and the pipes and con-  
duits as well as connections shall be  
laid in the safest and best manner  
known.

SECTION 7. The Town Council shall  
appoint an inspector to oversee and  
examine all pipes and material used by  
every such gas company, direct the  
course and depth of laying pipes, etc.,  
on all streets and alleys and he shall  
have power to cause all work to be  
stopped on violation of any part or  
portion of the ordinance. Such in-  
spector so appointed shall be paid by  
each and every company a reasonable  
salary to be named by the Town Coun-  
cil and he shall be employed only dur-  
ing the progress of the work.

SECTION 8. All streets, lanes, roads

and alleys used or occupied by any  
such company shall be left in as good  
condition as when found and sixty  
days after the work has been completed  
shall go over and roll all ditches and  
depressions on their lines. And if at  
any time the Borough auditors may  
wish to grade any street or alley occu-  
pied by the line or conduit of any com-  
pany mentioned herein, the removal,  
relaying or other necessary work  
caused by such grading shall be at the  
expense of the company owning the  
line. Ten days notice shall be given  
by the Borough to the respective com-  
pany concerning any proposed grading  
affecting pipes, etc., already laid.

SECTION 9. Not more than 15 of any  
street nor 15 of any alley shall be  
blocked during the process of any  
work by any company, and all ditches  
and excavations shall be protected by  
such company by proper lights, blinds  
or other devices.

SECTION 10. Every company shall  
have all necessary supplies on hand  
at all times, and any reliable  
plumber shall be allowed to make con-  
nections from each line to any build-  
ing granting no exclusive plumbing  
privilege except for heating.

SECTION 11. The price of tapping  
shall be a set price, and any reliable  
plumber shall be allowed to make con-  
nections from each line to any build-  
ing granting no exclusive plumbing  
privilege except for heating.

SECTION 12. Each and every com-  
pany shall make, execute and deliver  
to the said Borough a bond in the sum  
of \$25,000.00 conditioned for the  
faithful performance of their compli-  
ance with all the terms and provisions  
of this ordinance, and further con-  
ditioned to indemnify and save harmless  
the Borough of Conneltsville from any  
and all loss, suits, damages, expenses  
or expense in any other manner  
arising in the occupancy of any street,  
lane, road or alley.

SECTION 13. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.  
Passed the Council May 20, 1887.

SECTION 14. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 15. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 16. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 17. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 18. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 19. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 20. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 21. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 22. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 23. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 24. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

SECTION 25. Any company accept-  
ing the provisions of this ordinance  
by filing bond as above shall begin  
work within thirty days and finish  
within ninety days from date of bond  
or forfeit all privileges hereunder.

Passed the Council May 20, 1887.

SECTION 26. No such company men-  
tioned or described herein shall be  
permitted to carry a pressure of more than  
ten pounds to the square inch in any  
of their mains provided that for manu-  
facturing purposes the Council may  
allow a heavier pressure in isolated  
localities where no damage could be  
done to public property  
from leakage of gas.

9 by 12 Rug Special

## T. R. INSPECTS COAL REGIONS.

Goes Right Into Miners' Homes to Learn Conditions.

### PUTS IN TEN HOURS' WORK

Grimy Underground Workers Given Great Surprise When the Colonel Reveals His Identity—Teddy Plays With the Babies, Asks Questions.

Beranton, Pa., Aug. 2.—Mr. Roosevelt has turned sociologist. He has forsaken the field of politics for the time being and is now a social worker. He came into the heart of the anthracite coal regions of central Pennsylvania to see how the miners live and what they do.

The colonel, with all of his characteristic vigor and energy, spent ten hours visiting the homes of the workers, inspecting the mines themselves and taking a look into the conditions of the young women who are employed in the silk mills near here. He had a perfectly busy time. The mystery of a quiet little trip has been solved.

Roosevelt has done many things, but, despite the hand he had in the disputes of the coal miners, he never saw before at close range how they do it.

### Just Looking Things Over.

Roosevelt declared that his idea in coming up here was merely to inspect and nothing else. He said that any conclusions to be drawn from this flying visit will be drawn by him. He expects to strike on several other occasions, and wants time to digest what he consumes.

The first portion of the real picturesque type that the colonel encountered was Jake Kavanaugh, a miner. Kavanaugh was returning to his cottage from the mines. He was grimy and dirty. On his head was the miner's cap and miner's lamp. His boots made walking cumbersome. He carried his dinner kettle in a cloth held fast by thick leather belt. The colonel halted him and began to talk.

In about two minutes Roosevelt and Kavanaugh were hastening to the miner's house a short distance away. They were alone and the colonel was bombarding his new friend with all sorts of questions. The two stepped onto the front porch and Roosevelt played with two little kiddies while Jake Kavanaugh told his tale to cut out the disheartening and he sojourned. Jake, however, had not the slightest idea that his guest was the ex-president of the United States.

With the Kavanaugh the colonel talked about social conditions in Dickson City. The miner volunteered the information that there were no amusements calculated to entertain the young folks and he thought it was disgraceful.

### Denounces Dance Halls.

The colonel remarked that dance halls connected with saloons are bad things for young women. He said that the young folks ought to have a place where they can dance. He remained with the Kavanaugh for half an hour, told them who he was and went away leaving them flabbergasted.

A vague rumor that the contributing editor, the actual Roosevelt, the made think, had come to their midst, gradually spread about the town. Men who had been washing clothes in the yard stopped long enough to inquire. The kids carried the report. It roared with delight when he saw the underlined mob. He gave a nickel each to three youngsters. He told them to buy candy.

John Mitchell, president of the United Mineworkers, accompanied him today on another expedition near Wilkes-Barre.

### UNION MINE WORKERS

Will Convene Again at Call of President Lewis.

Indianapolis, Ind., Aug. 2.—T. L. Lewis, president of the United Mineworkers, announced that a call would be issued for a special national convention of the organization to be held in this city within the next two weeks. "This has become imperative," said he, "because of the complications that have developed in some districts and also because of the methods used to deceive the mineworkers of Illinois. I had and have no desire to do anything but protect the interests of the mineworkers of this country, and the decision will be astonished when they come to Indianapolis and learn the facts. The convention is called to convene in Indianapolis within two weeks."

Lewis says there are at present more than 150,000 members of the organization on strike, 50,000 in Illinois, 10,000 in Pennsylvania, 6,000 in Ohio and 2,000 in Colorado.

It is possible this list will be increased when the present contracts with the operators expire in Wyoming and Washington in September.

Millions of People Are Benefitted each year and made happier by having bank accounts. Think it over and you will see why it is also to start an account with the Citizens National Bank. Four per cent. interest paid on savings accounts. Citizens National Bank, Conneltsville, Pa. Capital \$100,000. Surplus and profits \$115,000.

John Osborne of North Georges township was a business visitor Monday.

A jolly crowd of Uniontown people came out on the 11th Monday with well filled baskets and picnicked in Weaver's Grove. The Misses Hannah, Young, Miss Abraham and Mrs. Hannah Wolfe of this place

### BERLIN.

BERLIN, Aug. 2.—Yesterday morning while Ralph Gorman and Henry Morgan were returning from a short drive into the country their horse became frightened at a passing bicyclist and ran away. Both occupants jumped out after trying to stop the animal. The horse ran for more than a mile when it was stopped by H. P. May who was driving towards town. Neither of the men was injured in the accident and no damage was done to the horse or vehicle which seems almost remarkable.

A petition in being circulated about town to be presented to Council asking that two buildings be placed at convenient places in town for storing the horse cars. Some time ago Council decided to have a suitable building erected on the borough ground opposite the Council chamber, which should be large enough to hold both cars, and in addition to the building a lever was to be built for drying the horse.

S. J. Tappan of Glenside, a brother of George Tappan, who was buried here today, was in town from Monday until Tuesday morning.

J. G. Bowman, a prominent farmer from near Meyersdale, was in town yesterday on a business mission.

The trustees of the Lutheran church have completed the fence about the old house which they also had the weeds mowed and burned and the rubbish removed which adds greatly to the appearance.

## Good beer is an ideal hot weather beverage

Hot, humid, sultry, "sticky" weather is a great drain on one's physical strength

It calls for as much (if not more) strength and nerve power than cold, wintry days

Strength—the kind you need—is not merely the result of a stimulant but that which is satisfying, staying

Just stimulating enough to cause a healthful, rosy glow—

But so nourishing, vitalizing and sustaining that it furnishes at the same time an ideal food and drink

The effects are permanent because of the choice, well ripened grains from which it is made

It is the very essence of purity and goodness

It is best to have a case of Pittsburgh Brewing Co's beer at home, handy, when wanted. Phone or drop a postal to your dealer

Pittsburgh Brewing Company

Connellsville Brewery.

MEYERSDALE.

## SLEUTH THINKS GIRL INNOCENT.

Miss Leneve Shielding Dr. Crippen Though, Declares Dew.

### CAPTAIN KENDALL'S FINE WORK

Commander of the Liner Montrose Given Credit For Landing Accused Doctor and Girl Companion—Kendall Talks.

Quebec, Aug. 3.—"Ethel Clara Leneve may be innocent of any share in the murder of Dr. George Crippen," said Inspector Dew.

"She has told me her simple story and it is sufficient to clear her of any guilt if certain facts which she sets forth are established. I am in communication with Scotland Yard and the detective in England are working to prove her story. She is doing all she can to shield Crippen, however, and constantly in her discussion of the case she repeats her belief that he is innocent. We know better."

After a sleepless night the girl appeared on the verge of collapse. Her face is drawn; there are deep circles under her eyes and a slight color in her cheeks.

But the little doctor gave evidence of having further regained his spirits. He ate a hearty breakfast and even attempted to jest with the guards who kept him under watch every moment of the day and night.

#### Captain's Detective Work.

Montreal, Aug. 3.—According to every man jack of the officers and crew of the Montrose, which now lies in port after her eventful journey with Dr. Crippen and Miss Leneve as passengers, the whole effort of capturing the fugitives from London belongs to Captain Kendall, commander of the vessel, and to the captain alone.

It was he who first noticed a clerk; it was he who followed it up, and it was he alone that planned all the details of the arrest at Father point. Inspector Dew and his Canadian colleagues of the law were merely obeying orders given by Kendall for hours before when they stepped aboard the Montrose disguised as pilots.

Ever since the Montrose has become connected with the case Captain Kendall has refused to be interviewed, acting, he says, on the advice of Scotland Yard through his direct head, Arthur Hays Sulzberger. Now that the arrest has been successfully made he is not so averse to talking and loosened up in his own cabin in true seaman fashion.

"When I first became suspicious of my two passengers," said the captain, "I wired New York, who transmitted my message to the authorities. I said: 'Have every reason to believe Crippen and Leneve aboard my vessel, I repeat, disguised as boys.' Later on I again wirelessly confirmed my suspicions. These messages had to be relayed back by the Maritima, we having passed the wireless zone of our own vessel. I received no reply to these, owing to the fact, I suppose, that we were out of reach of both land and sea stations."

"I kept eye to port hole. I watched the pair daily from my port hole. I have already told you substantially what I saw. As a matter of fact I saw more than Scotland Yard will ever see from their binoculars when they thought no one was looking. But I was not absolutely certain and decided that I must have them watched in their stateroom to make sure that Leneve was a girl. The chief engineer, Mr. Vine, and myself rigged up a sling and I was to go over the ship's side on a rope to have a look through the port hole that night. Before they had turned in, however, I was so sure that it was not necessary."

"When the Montrose got near to the Gulf of St. Lawrence I began to receive wireless messages, among others one from Dew. I replied that I now fully identified Crippen and the girl from photos which appeared in the London newspapers and from their actions aboard ship. He replied that he would watch me again. I did not hear from him and therefore sent him word how he was to act in making the arrest."

"Old as Kendall Advised. 'Four hours from Father point Dew replied: 'Everything arranged as you advised' and his coming aboard disguised as a pilot was the result."

There is the "funny" story Captain Kendall says he told Crippen in order to make him laugh so that he would open his mouth and give a look at his teeth to see whether they were false or not. "A merchant in London had some shipment of lumber cheese which he wanted to send to Scotland, but the smell was so bad no railway would take it. Finally he put it in a coffin, bundled in black, and shipped it as a corpse. When the journey's end was reached the guard asked sympathetically, 'Relative, sir?'"

"Yes," replied the merchant. "Well, he sure is dead, ain't he, sir?" Crippen haw-hawed and Kendall got his look.

#### Boys on Engine Pilot.

Rockford, O., Aug. 3.—A Cincinnati Northern passenger train struck a horse here and killed it. The train was stopped and two boys were found on the pilot of the engine. One was unconscious and, but for his companion holding him, would have been ground to pieces. The boys belong to well known citizens, L. A. Burgess and A. Trub.

## MAUD MAKES JUNK OF TANDEM MOTORCYCLE.

Logansport, N. Y., Aug. 3.—Clyde Jennings took his sweet heart for a ride on his tandem motorcycle and, feeling a mule standing in the roadway, let on the gasoline and opened wide the exhaust.

"Watch him run," he said, but when the mule didn't run Jennings turned to pass the animal, fearing a collision. Just as he was opposite the mule it let fly with both heels, striking the motorcycle amidships and hurling the riders over a steep bank. The machine was broken to pieces and the riders were badly bruised.

### GRAND TRUNK STRIKE

Comes to an End and Trainmen Will Be Reinstated.

Ottawa, Ont., Aug. 3.—"Am delighted to be able to inform you that the strike of conductors and trainmen on the Grand Trunk railway system has been brought to an end through government intervention."

MacKenzie King, Canadian minister of labor, sent the above telegram to Sir Wilfrid Laurier. It means, of course, that the big trainmen's strike in Canada, the whole effort of capturing the fugitives from London belongs to Captain Kendall, commander of the vessel, and to the captain alone.

### SUSPECTS ARE RELEASED

Persons Taken in Connection With Watson's Death Go Free.

Parkersburg, W. Va., Aug. 3.—Claude S. Shuman, Tull and Jesse Metz, the three suspects arrested in connection with the death of James A. Watson of this city, believed to have been poisoned and robbed of over \$2,000, have been released by the authorities.

The termination of the day aside from this was the report of Dr. O. Ross, who reported he found large quantities of strychnine in Judge Watson's stomach, enough, in fact, to kill several men. Further examinations are expected in the murder mystery.

### EAGER TO SHUFFLE OFF

Mrs. Stetzel, With Hatpin, Makes Second Suicide Attempt.

New York, Aug. 3.—Mrs. Augusta Stetzel, while waiting in Harlem court prison to be arraigned on the charge of attempted suicide, repeatedly jabbed a hatpin into her left wrist in a second effort to end her life.

Only the prompt action of a turnkey in wrenching the hatpin from her and tying a handkerchief about her arm averted the wound saved her life. The magistrate ordered that she be sent to Bellevue hospital under her recovery and put under observation as to her sanity.

### BITTER FIGHT IN IOWA

Republican State Convention in Session Today.

Des Moines, Ia., Aug. 3.—There is a bitter fight on in the Republican state convention which met here today over the issue of endorsing the Taft and Carroll national and state administrations. The convention will consist of 1,325 delegates.

As near as the factional complexion can be determined the Cummins-Dolliver, or insurgent wing, will have 722 delegates and the standpaters 603. Leaders of both factions admit that the actual test of strength will not vary much from these figures.

### Got Idea From Picture Shows.

Indianapolis, Ind., Aug. 3.—Two boys, aged eleven and fourteen, were sent to the boys' reform school for burglary and firing at the police when officers sought to arrest them. The boys told the court that they had seen a great deal of their time at picture shows and at times, while witnessing robberies, hold-ups and wild west shows, they had conceived the idea of robbing stores.

### July Bad Month.

New York, Aug. 3.—Eighteen persons were killed and 153 were injured in the streets of New York city during the month of July. This swells the total figures for the year 1910 of persons killed and injured in the streets to 23 dead and 522 injured.

### Advices Fight to Finish.

New York, Aug. 3.—After a secret conference in which Samuel Gompers, representative of the cloak and garment makers' unions, and other labor chiefs took part it was announced that Gompers had advised a fight to a finish with no further conferences with the manufacturers.

### Weather Forecast.

Partly cloudy today; Thursday, showers; light variable winds.

## BALLINGER IN FIGHT TO STAY.

Has No Intention of Quitting President's Cabinet.

### HE ANGRILY DENIES RUMORS

It is Generally Believed Senator Crane Asked Interior Secretary to Hand in Resignation—No Denial of Tale is Made at Beverly.

Chicago, Aug. 3.—Secretary Ballinger said here: "I am not going to resign. They can't make me resign. All such talk is the work and sentiment and desire of scurrily politicians supported by scurrily newspapers. I am on the job and will stick until relieved by the president."

"Senator Crane is out west on a political mission in which I am not interested at all. I am out west in the interest of my department and am not interested in politics at all." His denial was issued after reading the dispatches which indicated that Senator Crane's mission was to carry the hint that Ballinger would aid the party by withdrawing.

### Fire Ballinger Is the Cry.

Beverly, Mass., Aug. 3.—In the last few months President Taft and the executive offices here and in Washington have been literally swamped with communications advising the president to dismiss Secretary of the Interior H. A. Ballinger.

Within a short time many leaders of the Republican party have intimated, some boldly, others in more equivocal terms, that the resignation of Ballinger from the cabinet would do more to bring success to the party at the polls next fall than any one thing. Last week the Republicans of Ohio, although they nominated Warren G. Harding, showed that there was some sentiment for James Russell Garfield, one of the bitterest opponents of the present secretary of the interior.

The vote in that convention for Garfield is acknowledged by Ohioans who have seen Taft alone to be in the nature of a slap at Ballinger.

Last week the president summoned Senator Winthrop Crane of Massachusetts to Beverly. Senator Crane was asked to go west and it became known that Seattle, where Ballinger lives, was included in the contemplated trip. The White House officials evinced no great surprise.

The inference was drawn immediately that Senator Crane, acting perhaps on his own initiative, but convinced that he would not be censured by the president, had asked Ballinger to resign. This Secretary Norton did not deny.

He merely reiterated probably a dozen times, "Senator Crane?" The inference was drawn immediately that Senator Crane, acting perhaps on his own initiative, but convinced that he would not be censured by the president, had asked Ballinger to resign. This Secretary Norton did not deny.

The report ran to the effect that the Republican leaders had seen the light and that Crane plainly told the secretary that he ought to get out for the good of the party. If Ballinger does so at the suggestion of Republican leaders it is acknowledged generally that the president will be relieved of a great deal of trouble. If he declines to do so without his knowledge in asking Ballinger's resignation and secured it it is not believed here that president Taft would refuse to accept it.

### Rolling Under Train.

Hammond, Ind., Aug. 3.—When waiting at the depot for a train to bring his sweetheart to him, Lewis Throckmold, aged twenty-five years, fell asleep on the platform. The noise of a Chicago flyer awoke him suddenly and he rolled off the platform under the wheels and was badly mangled. His sweetheart got off the train to find Throckmold on his way to St. Margaret's hospital in Hammond, where he died.

## MT. PLEASANT NEWS

Death of Mrs. Grace Nixon, a Youngwood Woman.

MT. PLEASANT, Aug. 3.—(Special.) Mrs. Grace Nixon of Youngwood died last night at the family residence of a relapse following the birth of a baby girl. Mrs. Nixon was 30 years of age. She is survived by her husband and three children, Michael, Clyde and Charlotte. These brothers, Clyde, Harry and Lem of Scottsdale, and William of Buffalo, N. Y., and her mother, Mrs. Charlotte Harrer of Scottsdale. Funeral services from the residence at 2:30 Wednesday afternoon.

### Local and Personal.

Joseph A. Eichler, well known teamster of this place, fell from his wagon while going up Washington street at 7 o'clock last evening and broke one of his legs. The accident occurred in front of P. S. Wolfenberger's residence. The mule that was pulling the wagon gave a sudden jerk which dislodged Eichler from his seat on the wagon, throwing him to the ground. Dr. Ralph Fulton reduced the fracture.

Charles, the four-year-old son of Mrs. Ella Miller of Willow street, mysteriously disappeared from his home at 2 o'clock yesterday afternoon, and all attempts to locate him proved futile. By accident some neighbor boys located the child at a merry-go-round at 6 o'clock last evening, which is located down in the lower end of town. The youngster was pleased with his escapade, and also being charmed by the "flying jenny" it was with a great effort that he was persuaded to return home.

The farm of Herman Kreinbrook, located southeast of Laurelville, was sold at public sale yesterday afternoon. Charles Kreinbrook, a son, purchased the property for \$1,500, or about one-third of its real value.

The local W. C. T. U. will hold its annual meeting in the United Brethren church this afternoon at 2 o'clock. The election of officers for the coming year will take place.

The local Italians headed by Antonio Lombardi and Joseph Regan will celebrate the Feast of Saint Mary on Monday, August 15th. High Mass in the morning will be followed by a concert by the Italian band, and a display of fireworks in the evening.

## Knights of Malta Past Commanders Hold a Meeting

Last night in Malta Hall, Title & Trust building, a meeting of the Past Commanders Association of the Ancient and Illustrious Order of Knights of Malta, comprising the Past Commanders of Fayette county, was held for the purpose of schooling the Past Commanders in the secret work of the order, also to discuss topics of interest relating to the order, and questions of interest to the community in general. Speakers were present from Uniontown, Dawson, Brownsville, Perryopolis and Connelville and the discussions were very helpful to those present.

The Past Commanders Association represent the home and away of the order in Fayette county and the monthly meetings are looked forward to with keen interest. By these meetings the members of the organization from all parts of the county and other places, as well as are brought together for the exchange of ideas that are very helpful in furthering the work of the order.

The next regular meeting of the association will be held in Uniontown on September 11, at which time several topics of great importance will be debated. A full attendance of all Past Commanders is desired, also any other members of the order, whether Past Commander or not will be welcomed to participate in the topic which will be thrown open for general discussion.

## PEDDLING LICENSES.

Wagon Run From Store Must Have a County License.

All interpretation of the law regulating peddling or hawking by merchants, as placed upon it by Deputy Attorney General William Hargrave, is most emphatic and affects some local dealers.

The merchant who runs a wagon in connection with his store and who peddles his wares from it, must procure a license from the borough to do so. Mr. Hargrave says:

"No exemption is found in the act to a retail dealer. Any person hawking, peddling or selling under his terms, except such as are specially exempted by its provisions, is required to obtain a license. It is the business of hawking and peddling which is regulated and retail dealers, who pay a mercantile license are within the general terms of the act of 1901 and not within its exemptions. There is nothing in the act of 1899 which permits a retail dealer, by virtue of having paid the mercantile license, to hawk, peddle and sell without obtaining a license therefor, as provided by the act of 1901."

"The purpose of the act was not so much to increase revenue as to regulate hawking, compel hawkers who do nothing else to pay a fair tax, and to protect the public from inferior, damaged or unwholesome goods. As it stands, however, the advantages is still with the tramp pedler, who only when he is caught, and he has no competition unless reputable merchants are willing to pay an additional license fee. Thousands of families buy from wagons and if the retail dealers do not keep these wagons going, the poorer classes, who can least afford it, will be the sufferers."

## NEWS OF A DAY IN SCOTSDALE.

Graft Family Reunion Picnic Is Set for Next Saturday.

### OPERATION FOR APPENDICITIS

Mrs. George Tressler of West Scottsdale Taken to the Mt. Pleasant Hospital—Christians Took a Trip to Bethel Church—Other Notes.

### Special to The Courier.

SCOTSDALE, Aug. 3.—The annual Graft family reunion will be held next Saturday at the home of Mr. and Mrs. George L. Graft, a mile west of town. It will be in the usual form of a picnic, to which relatives and friends are invited, said Charles L. Graft yesterday. There have been several of these reunions or birthday parties, since the time is the birthday anniversary of Mr. and Mrs. Graft and all have been very enjoyable. The family is a large one and a pioneer in this locality.

Operation Was Performed. Mrs. George Tressler, who lives on West Pittsburg street, beyond the White school house, was operated on for appendicitis at the Mt. Pleasant hospital yesterday and withstood the operation nicely. It was reported, Dr. Gilbert, Smiley and Strickler had the case. Mrs. Tressler was taken ill on last week but got very much better, and was able to come to town on Saturday. On Monday she was taken violently ill and had to be removed to the hospital.

### Waiting at Home.

Mr. and Mrs. Joseph H. Adams, both of whom were born at Marlinton, Ohio, are back here visiting old home friends. Mr. Adams is the physical director of the Scottsdale Y. M. C. A.

### Went Down to Bethel.

In one of Harry Newcomer's big four horse wagons a crowd from the Christian church went down to Bethel church beyond the Tyrone Presbyterian church last evening. There is a meeting being held there at the present time, and the Scottsdale people made quite an addition to the congregation present last evening, as the wagon was filled to capacity.

### To Attend Reunion.

Consable William Eberhart of the Third Ward anticipates a great deal of enjoyment from attending the annual reunion of the 55th Pennsylvania Volunteer Infantry which will be held at Rogersville, Greene county, September 15 and 16. Comrade Eberhart is the only member from Scottsdale.

### Away to Camp.

A jolly party of the younger boys left yesterday for camp at Millbank in the Ligonier valley. They were Edward Connaire, Vincent Smith, Clarence Disk, Carlisle Bell and George Frey from Scottsdale and at Greensburg they were joined by Jack Hiler. Next week Don Porter, Ralph Bixler and Carl Gilbert will leave here to join them.

### Staffers Are Home.

After an absence of some years while they resided in Chattanooga, Tenn., operating large lumber interests Charles W. Staffer and family have returned to Scottsdale. They are now occupying their residence on Market street.

### A Picnic Meeting.

The committee having in charge the business of this picnic to follow next Wednesday, met in the Borough building last evening and were enthusiastic over prospects. It was reported that a list of 17 prizes has been secured, but no list is available for publication now. The prizes will be exhibited later.

Mrs. W. T. Martin and Miss Ruth Murray of Orono, in company with Mrs. W. H. Rankin and son, Okley, of South Connelville, returned from a week's outing at Killarney Park.

## CHAPTER XIV.

Prisoners in the Dark.  
Orme's hand still held her skirt.  
"Girl!" he whispered.  
"Yes. Are you hurt?"  
Her voice came to him softly with all its solicitude and sympathy. She knelt, to help him if need be, her warm, supple hand resting gently on his forehead. He could have remained for a long time as he was, content with her touch, but his good sense told him that their safety demanded action.  
"Not hurt at all," he said, and as she withdrew her hand, he arose. "Alcatraz caught me off guard," he explained.  
"Yes, I saw him. There wasn't time to warn you."  
"He has been dogging me for an hour," Orme continued. "I felt as though he were sitting on my shoulders, like an Old Man of the Sea."  
"Know him of old," she replied.  
"He is never to be trusted."  
"But you—how did you happen to be here, in the basement?"  
"In the hope of finding you."  
"Finding me?"  
"I called up the Pere Marquette about five minutes ago, and the clerk said that you had just been talking to him on the wire, but that he didn't know where you were. Then I remembered that you knew the Wallinghams, and I came to Tom's office to see if he had any idea where you were. I was on my way when I passed you in the elevator."  
"Tom and Beatie are at Glenview," explained Orme.  
"Yes, the girl at the inquiry desk told me. She went to get her hat to leave for the night, and I slipped into this chamber to wait for you."  
"And here we are," Orme laughed. "papers and all. But I wish it weren't so dark."  
Orme hunted his pockets for a match. He found just one.  
"I don't suppose, Girl, that you happen to have such a thing as a match?" she laughed lightly. "I'm sorry—"  
"I have only one," he said. "I'm going to strike it so that we can get our bearings."  
He scratched the match on his sole. The first precious moment of light he permitted himself to look at her, flaring her face in his mind as though he were never to see it again. It rejoiced him to find that in that instant her eyes also turned to his.  
The interchange of looks was hard for him to break. Only half the hard "some before he turned from her, but in that time he had asked and answered so many unspoken questions—questions which at the moment were still little more than hopes and yearnings. His heart was beating rapidly. If she had doubted him, she did not doubt him now. If she had not understood his feeling for her, she must understand it now. And the look in her own eyes—could he question that it was more than friendly? But the necessity of making the most of the light forced him to forget for the moment the tender presence of the girl who filled his heart. He therefore employed himself with a quick study of their surroundings.  
The chamber was about ten feet square, and lined smoothly with white tiling. It was designed to show the sanitary construction of the Wallingham refrigerator. Orme remembered how Tom had explained it all to him on a previous visit to Chicago.  
There was no connection with an lavatory, and there were none of the books and shelves which would make it complete for its purpose. The only appliance was the thermometer, the coils of which were fitted in flush with the tiling, near the door, and protected by a close metal grating. As for the door itself, its outline was a fine semicircle.  
As the match burned close to his fingers, Orme pulled out his watch. It was twenty-nine minutes past five.  
Darkness again.  
Orme groped his way to the door and tugged at the handle. The door would not open; built with airtight safety, it did not budge in the least.  
This was what Orme had expected. He knew that Alcatraz would be shot the bolt. He knew, too, that Alcatraz would be waiting in the corridor, to assure himself that the last clerk left the office without freeing the prisoner—that all the lights were out and the office locked for the night. Then he would depart, exulting that the papers could not be delivered; and in the morning Orme would be released.  
But had Alcatraz realized that the chamber was airtight? Surely he had not known that the girl was already there. The air that might barely suffice to keep one alive until relief came would not suffice for two.  
There was not the least opening to admit of ventilation. Even the places where, in a practical refrigerator, connection would be made with the lavatory, were blocked up, for that matter, they were on that side of the

the girl.  
He went on to describe his efforts to get free from Alcatraz.  
"And you were under the table in Alcatraz's room," she exclaimed, when he had finished.  
"I was there, but I couldn't see you, Girl. And you seemed to doubt me."  
"To doubt you?"  
"You remember? You said that no American had the papers; but you added, 'unless—'"  
"Unless Walsh, the burglar, had played a trick on Portol and held the true papers back. I went straight from Alcatraz to the jail and had another talk with Walsh. He convinced me that he knew nothing at all about the papers. He seemed to think that they were letters which Portol wanted for his own purposes."  
"Then you did not doubt me," Glad replied in his voice.  
"I have never doubted you," she said, simply.  
There was silence. Only their breathing and the ticking of Orme's watch broke the stillness.  
"I don't believe that Alcatraz knew that this place was unventilated," she remarked at last.  
"No; and he didn't know that you were here."  
"He thinks that you will be released in the morning, and that you will think it wiser to make no charges. What do you suppose his conscience will say when he learns—?"  
"Girl, I simply can't believe that there is no hope for us."  
"What possible chance is there?"  
"The clerks must all have gone by this time. We can't make ourselves heard."  
"Still, I feel as though I should be fighting with the door."  
"You can't open it."  
"But some one of the clerks going out may have seen that it was bolted. Wouldn't he have pushed the bolt back? I'm going to see."  
He groped to the door and tugged at the handle. The door, for all the effect his effort had on it, might have been a section of solid wall.  
"Come back," she called.  
He felt his way until his foot touched the cent. As he let himself down beside her, his hand brushed over her hair, and unconsciously he leaned toward him. He felt the pressure of her shoulder against his wide, and the touch sent a thrill through him. He leaned back against the wall and stared into the blackness with eyes that saw only visions of the happiness that might have been.  
"We mustn't make any effort to break out," she said. "It is useless. And every time we move about and tug at the door, it makes us breathe that much faster."  
"Yes," he sighed, "suppose we can only sit here and wait."  
"Do you know," she said softly, "I am wondering why our situation does not seem more terrible to me. It should, shouldn't it?"  
"I hardly think so," he replied.  
"The relative importance of our worldly affairs," she went on dreamily, "appears to change when one sees that they are all to stop at once. They recede into the background of the mind. What counts then is, oh, I don't want to think of it! My father—he! He shudders shook for a moment under the stress of sudden grief, but she quickly regained her control.  
"There, now," she whispered, "I won't do that."  
For a time they sat in silence. His own whirling thoughts were of a sort that he could not fathom; they possessed him completely, they destroyed, seemingly, all power of analysis, they made him dumb; and they were tan-

chamber which was built close into the corner of the office.  
Orme drove his heel against the wall. The tiles did not break. Then he stopped back toward the middle of the chamber.  
"Where are you, Girl?" he asked.  
"Here," she answered, very near him.  
He reached out and found her hand, and she did not withdraw it from his clasp.  
"The rascal has locked us in," he said. "I'm afraid we shall have a long wait."  
"Will it do any good to shout?"  
"No one could hear us through these walls. No, there's nothing to do, but remain quiet. But you needn't stand, Girl."  
He led her to the wall. Removing his coat, he folded it and placed it on the floor for a cushion, and she seated herself upon it. He remained standing near by.  
"The papers," he said, "are in that coat you are sitting on."  
He laughed, with a consciousness of the grim and terrible humor of their situation—which he hoped she had not realized. Here they were, the two hard-sought papers in their possession, yet they were helpless even to save their own lives.  
"I wish you would shout," she said.  
"Very well," he said, and going over to the door, he called out several times with the force of his lungs. The sound, peep in that narrow room, fairly crashed in their ears, but there was no answer from without.  
"Don't do it again," she said at last. Then she sighed. "Oh, the irony of it!" she exclaimed.  
"I know," he laughed. "But don't give up, Girl. We'll deliver those papers yet."  
"I will not give up," she said, gravely. "But tell me, how did you get the papers?"  
Orme began the story of the afternoon's adventures.  
"Why don't you sit down?" she asked.  
"I'm—stammered—"

He had been so conscious of his feeling toward her, so conscious of the fact that the one woman in all the world was locked in here alone with him, that he had not arranged her seat as he had not trusted himself to be near her. And she did not seem to understand his feeling for her, she must understand it now. And the look in her own eyes—could he question that it was more than friendly? But the necessity of making the most of the light forced him to forget for the moment the tender presence of the girl who filled his heart. He therefore employed himself with a quick study of their surroundings.

The chamber was about ten feet square, and lined smoothly with white tiling. It was designed to show the sanitary construction of the Wallingham refrigerator. Orme remembered how Tom had explained it all to him on a previous visit to Chicago.

"Try to Take a Different View, Girl,"  
gled instinctively in the blended impression of possession and loss.  
"But you," she said at last, "is your father living?"  
"No," he replied.  
"And your mother?" she faltered.  
"She has been dead many years. And I have no brothers or sisters."  
"My mother died when I was a little child," she mused. "Death seemed to me much more awful then than it does now."  
"It is always more awful to those who are left than to those who go," he said. "But don't think of that yet."  
"We must think of it," she insisted. He did not answer.  
"You don't wish to die, do you?" she demanded.  
"No; and I don't wish you to die. Try to take a different view, Girl. We really have a chance of getting out."  
"Some one may come."  
"Not at all likely," she sighed.  
"But a chance is a chance, Girl, dear."  
"Oh!" she cried, suddenly. "To think that I have brought you to this! That what you thought would be a little favor to me has brought you to death."  
She began to sob convulsively.

Runs Into Open Switch.  
Corby, Pa., Aug. 3.—As train No. 7 approached this city it ran into an open switch. The side track was open, which saved a bad wreck.

## A DECIDED CUT IN PHONE RATES.

The Bell Company Said to Be Working on Reductions.

## CHANGE IS EXPECTED SOON

Board of Revision Is Going Over the New Schedule of Prices That Are To Be Charged—May Be Considerable of a Reduction.

Through pressure brought to bear upon the C. D. & P. Telephone Company by the Interstate Commerce Commission, the Bell telephone rates throughout the State of Pennsylvania and to all points in Ohio will in all probability be substantially reduced. At present the matter of reduction is in the hands of the Rate Committee at Philadelphia, and while no report has been heard, it was made known Monday morning that when the findings of the committee are given out, Connelville subscribers will have cheaper telephone rates than at present. Other Pennsylvania subscribers will be affected in like manner.

This was learned through a conference of interested parties with District Manager Billingsly. Mr. Billingsly stated that the Interstate Commerce Commission had asked the Bell Telephone Company for a revision of their rates in accordance with their laws. He said the committee had been at work for some time on the rates and admitted there would be a reduction. How much, he claimed, he did not know, as the work of revision was an immense task and the committee was not yet through with their work.

The rates in force have been objected to by the subscribers. Since the report of reductions in rates, it has been stated by parties, who claim to be in touch with the matter, that they will be reduced almost by one-half. These people expect some definite knowledge of the rates by September 1.

At different points in Ohio there has been a war for some time between the Bell and independent companies. Mr. Billingsly said the tolls to all points in that State would be brought down. Since a statement as to the exact reductions in the entire matter is yet to be given out, the subscribers and other users of the company's telephones await their action with interest.

## FASTED TWENTY-ONE DAYS

Merchant of Catawissa, Pa., Has Cure For Indigestion.

Wilkes-Barre, Pa., Aug. 3.—After fasting for twenty-one days to cure indigestion H. S. Grove, a merchant of Catawissa, near here, considered himself cured and started to eat again. He found he was not hungry. It may be several days before he gets an appetite.

## OUTING CLUB

Of Scottsdale Leaves for Their Annual Encampment.

In their special car the Scottsdale Outing Club left for their annual outing yesterday. Their destination is North Grand, Pa. The men wore brown knickerbockers, brown shirts, dark ties and caps, while in their shirts was a triangular figure with the letters "S. O. C." The club is fully equipped with tents, camping outfit, and carries a chef and two assistants. Several ladies are along this year and they will live at farmhouses near the camp. Among those in the crowd were: B. T. Smith, R. E. Moreford, M. E. McCardie, Joseph Fagan, W. F. Mullinger, Cleon King, C. K. Shauer, Charles King, Edward O'Neil, Charles Condon, F. M. Wise, C. W. Lippa, C. B. Trumble, J. W. Jensen, Clark McPherson, James Murray and J. F. Derry. The ladies were Mrs. Edward O'Neil, Mrs. Charles Condon, Misses Saffie and Katie McCardie, Maud Shauer, Carrie King, Fanny Smith.

## SUMMER TRIPS.

Everybody Should Have a Change of Scene at Least Once a Year.

Have you had a vacation or are you going to take one? Every man and woman should have an outing some time during the year. All work and no play makes Jack a dull boy—even him out before his natural time. To enjoy a vacation thoroughly one must take a little trip—have a complete change of scene and people. This, of course, costs money, but not so much money that it cannot be easily saved by men and women of ordinary means. If you haven't the wherewithal to take a vacation this year, why not begin right now to save for next year? Just a little saved every day and deposited in the First National Bank of Connelville at 4 per cent interest will provide a handsome sum for a trip next spring or summer. One dollar opens an account.

Corned Beef For Johnny Atkins.  
London, Aug. 3.—The government has contracted with an American packing concern for nearly a million pounds of corned beef. A record price, it is stated, will be paid for the meat.

## BOLTON IS HELD

By Authorities at Newark For Conspiracy in Lynching.

Newark, O., Aug. 3.—Llew Bolton, former saloonist here, alleged to be the man who placed the rope around the neck of Carl Eberington, the dry detective lynched by the mob on July 8 and who was arrested in Delaware and brought here, had his preliminary hearing before Mayor Ankele.

There were three witnesses for the state and fourteen for the defense. At the conclusion of the hearing Bolton was bound over to the grand jury charged with first degree murder without bail.

## BETWEEN TWO FIRES

Spanish Premier Too Extreme For Clericals; Too Weak For Radicals.

Madrid, Aug. 3.—With a view to meeting the charges of the Clericals and to allay the agitation which is going on in Spain Senor Prieto, minister of foreign affairs, has given out an interview, the gist of which is that the government has adopted a conciliatory tone throughout the recent negotiations with the nation. He adds that the papal authorities are irreconcilable. The Clericals are holding daily meetings with the purpose of stirring up the feeling against the Canelajas ministry.

The anti-Clericals, however, are conducting a rabid propaganda, especially at Saragossa and it is evident from the utterances of the leaders that Canelajas is not moving fast enough to suit the radicals. His declared attitude is denounced by extreme anti-Clericals as weak and irresolute. They demand a policy of confiscation coupled with the expulsion of the monks and nuns.

## Three Hundred Quit.

Huntington, W. Va., Aug. 3.—Three hundred glass blowers of the Huntington Tumbler company are out on a strike following the action of the company in refusing to recognize the union and grant their demands of a nine-hour day.

## IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all this which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.

Mrs. J. A. Baldwin, 122 East Vine St., Mt. Pleasant, Pa., says: "I willingly confirm the public statement I gave in praise of Doan's Kidney Pills in October, 1907. I have used this remedy and it has always brought relief from kidney disorders. We generally have a supply of Doan's Kidney Pills in the house and rely upon them for relief when the kidneys become disordered."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## Three New Mining Stations Will Be Erected Under New Mining Bureau.

WASHINGTON, D. C., Aug. 2.—In the near future Uncle Sam will construct three rescue stations for victims of mine disasters. They are to be located at Wilkes-Barre, Pa.; Huntington, W. Va., and Birmingham, Ala., all centers of vast mining districts. This is the first work undertaken by the new Bureau of Mines. In all mine rescue stations are to be completed this year, according to the present plans of the bureau.

The purpose of the new bureau is to conduct investigations and co-operate with mine operators and miners to prevent mining accidents. It will study the causes of mine accidents, and work to discover better methods for their prevention. It will maintain the rescue stations for aid to the injured and instruct volunteer corps of miners in rescue work. Information will be supplied mine operators as to more economical methods of operation, and it will act as Uncle Sam's adviser in the purchase and use of Government coal which now costs American taxpayers \$50,000,000 annually.

The Federal appropriation for the bureau was half a million dollars. If the new project yields the results expected many believe it is destined to become one of the most important branches of the Federal Government, for the demand for it even now is nationwide and no other branch of the Government service, save only perhaps the Agricultural Department, with its intimate relations with the farmer, is so overwhelmingly placed to arouse public notice and sympathy.

Guard For Industry.  
The first great asset of this bureau is that it deals first hand with the two most absorbing questions of interest, human life and wealth. It is the Government's foster parent of an industry employing over 700,000 men, of whom over three percent are killed annually. It is guardian of an industry now adding over two billion dollars annually to the nation's wealth, wherein the yearly waste approximates \$200,000, nearly \$1,000,000 for every working day in the year.

Conditions obtaining in many mines in America are admitted to be most deplorable but, in many cases, the evils are not entirely preventable. The growth of the industry has been so rapid, having advanced swiftly until now more than 700,000 men are employed, that new problems were constantly thrust upon the operators. In many cases disasters have resulted from unfamiliar situations, but in a large majority of cases it is believed that scientific methods could have saved heavy loss of life and property.

It is estimated that in the past 20 years mine disasters have cost 30,000 lives in America, and that they have left over 11,000 widows with an aggregate of 20,000 fatherless children. In recent years, however, these disasters having become more frequent, they have attracted more attention and last winter several unusual accidents served to arouse public opinion to a high pitch with the result that the long-sought Bureau of Mines finally was created by Congress. In December of last winter a total of nearly 500 lives were sacrificed to the mining industry in America, the record for American disasters being established by an explosion at Monongah, Marlon county, West Virginia, when 356 were killed.

First Aid to be Improved.  
The first work to be done by the new bureau will be in the line of preparing to give "first aid" to the injured, through the establishment of the rescue stations.

At each station the bureau will maintain a practical miner, a mine boss and an engineer or superintendant. The station will be supplied with a complete equipment of devices used in rescue work, such as oxygen helmets and paraphernalia necessary for their operation.

Quarters will be erected sufficient to provide a home for a crew of at least a dozen men at each station. Volunteers will be invited from all the neighboring mines and a special course of instruction will be provided free to all who will attend. In this it is expected that the mining operators will co-operate with the bureau by assigning men to study the course offered at the stations, with a view to establishing in every mine a large corps of efficient life-savers.

The bureau will also endeavor to have each mine supplied with sufficient safety devices and complete equipment to be used by the life-saving crews in case of accidents. It will be the work of the superintendent of each station to keep in close touch with the mines in his territory and see that a corps of men, thoroughly drilled, is kept constantly on hand.

It will be the duty of the superintendent of the station to go immediately to the scene as soon as he receives news of any accident and assume charge, like the chief of a fire department. It will be his duty to direct all the rescue work and with him will lie the responsibility for the application of proper methods to fit the situation.

Inspect the Mines.  
The expert engineers in the employ of the bureau will visit all the mines in the country, make careful inspections and keep the head office at Washington advised as to the conditions existing in each. The bureau expects to maintain close relations with a view to establishing general co-operation for the mutual benefit of the mine workers and the mine owners.

In the statistics for 1908, which is the latest year for which complete figures are obtainable, the causes of coal mine accidents are given as follows: Falling of roofs and coal killed 1,008 men and injured 1,863.

## CLEVER WOMEN

Always Keep Their Hair as Fascinating as Possible.

Some women are born beautiful; some grow up to be beautiful; and some are clever enough to make themselves beautiful.

But all agree that no matter how perfect the features, how rosy the cheeks, how sparkling the eyes, no woman can attain the perfection of beauty unless she has an abundance of lustrous hair—of her own.

And thanks to Parisian Sage, which can now be obtained all over America, every woman can have natural hair in abundance; hair as lustrous as the rising sun.

Parisian Sage is without the least vestige of a doubt the most remarkable hair grower, invigorator and beautifier ever compounded.

It is so far ahead of all commercial tonics that A. A. Clarke guarantees it to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back.

Parisian Sage is delightfully refreshing, and is not sticky or greasy. A large bottle for 50 cents at druggists everywhere and at A. A. Clarke's. Mail orders filled, charges prepaid, by Groux Mfg. Co., Buffalo, N. Y.

## FREE SHOW IS NOW IN TOWN

They Drew Quite a Crowd Last Night. Free Performances Will Be Given Nightly.

The Quaker Doctors who created so much excitement in Uniontown during their two months stay there gave their second performance here last evening on the lot back of the Yough House.

Quite a large crowd gathered there these people came with scarcely any advertising. The performance by the comedians and singers is first rate, and illustrated songs being especially commendable as they used instead of the harsh electric light, the calcium or lime light. The Uniontown papers speak of these shows and the Quaker Doctors in the highest praise.

We understand that these free shows will continue nightly and they continue up to the standard of the one given last night, our best citizens need not be ashamed to bring the family to enjoy them.

The Quaker Doctors inform us that they will remain here for a few weeks and their remedies will be thoroughly advertised through this entire section of the State, and a permanent office will be established in Connelville.

## BALTIMORE AND OHIO RAILROAD.

SCHEDULE IN EFFECT MAY 29, 1910.

For CHICAGO—2.00 and 7.01 P. M. daily.

Games This Week.  
Wednesday—Leisenring at Trotter; Davidson at Monmouth.  
Thursday—Bitter at Butte; Morgan at Leisner.

**Mysterious Mr. Keefe.**  
Mysterious Mr. Keefe was the principal cause of Davidson's downfall yesterday afternoon and Butte won its first game 3 to 0. It was some game. From start to finish Umpire Greig kept the boys on the jump and they needed little urging. Superintendent Warnock came to town loaded for his game and returned home with the

Boyle got ready to hunt.

goods. Davidson was downcast but not discouraged. The boys near the steel works realize they were up against the real thing in the person of Mr. Keefe.

Butte took things on the jump. Heberly started to pitch for Davidson but lasted only three innings. He wasn't hit hard but Butte had scored and Davidson realized that something had to happen. Bill Sheetz took up the white man's burden and eased his shoos away. The rest after the third inning. He rivalled Keefe in the puzzle business. Not a single solitary bingle could Butte get off of Sheetz, but the team didn't need any more.

In the very first inning Eadish, the first man up, rapped out a clean single. Boyle fanned but Shamer cleared Eadish off the batter by a soaring triple to right field. He scored from third when Redmond scored a sacrifice fly into the waiting jaws of Mr. Roseblossom. Saitley ended the inning by scoring.

It took Keefe some time to get settled and while trying to find where Superintendent Heberly secreted that red rubber man when he put it on the field. P. Spitzer landed on a random curve for a single. Rickey bunted and Eadish dropped Redmond's leg. Both men were safe. Roseblossom, the heavy hitting outfielder in whom Davidson fans pin their hope, was deceived by a curve which went where he wasn't looking for and walked back to the bench. Jones popped a foul which Redmond pulled in and Sheetz eluded by the Redmond-Eadish route. Two men died on the pith-logs.

Heberly got his bearings in the second and Butte was hopeless. They flew to right while Louden and Durr went down on infield rollers. Davidson was almost as easy. Gillen and H. Spitzer rolling out on infield plays and Heberly fanning after Bennett had

had been agreed that only seven innings should be played.

Fischer Bell was in fine form for Bitter and Means gave him faultless support behind the bat. The peppery little pitcher was the life of the game. In only the second inning did Trotter find Bell for consecutive hits. While they tallied seven bingles off Bell to five off Jollie Joe the pitcher's duel was about even. Bell was steady as a clock, not giving a base on balls. Jollie Joe passed two batters. Bell had 11 strike outs. Jollie Joe had four, but the big Polo was there with the goods, compelling the hard Bitter hitters to swat the ball into the air or directly at the infielders. Hansen played a nice game at first for Trotter as did Brady at third. Four two base hits were made in the game, Forsythe and Gore getting doubles for Bitter, and Hart and Cunningham for Trotter.

**WHEELER WON.**  
Defeated Mt. Braddock 5 to 1 Yesterday Afternoon.

The Wheeler team went against the strong Mt. Braddock aggregation yesterday afternoon and won, 5 to 1. It was a good, fast game something different every minute of the time. The course of the game was the pitching of Wilson of Wheeler who struck out 14 men in the seven innings of play. Bryner and Matthews both worked for Mt. Braddock and were not hard to solve.

**Real Estate.**  
If you want to make an exchange of your property write or call and see what we have to offer you. One double house centrally located with extra lot. This is a bargain. Also the best home in the city for the money on East Main street. Modern home on South Side near Main street. Farms and business places for sale. Robinson & Evans, 311 Second National Bank.

had been agreed that only seven innings should be played.

Fischer Bell was in fine form for Bitter and Means gave him faultless support behind the bat. The peppery little pitcher was the life of the game. In only the second inning did Trotter find Bell for consecutive hits. While they tallied seven bingles off Bell to five off Jollie Joe the pitcher's duel was about even. Bell was steady as a clock, not giving a base on balls. Jollie Joe passed two batters. Bell had 11 strike outs. Jollie Joe had four, but the big Polo was there with the goods, compelling the hard Bitter hitters to swat the ball into the air or directly at the infielders. Hansen played a nice game at first for Trotter as did Brady at third. Four two base hits were made in the game, Forsythe and Gore getting doubles for Bitter, and Hart and Cunningham for Trotter.
